

Review Form 1.7

Journal Name:	South Asian Journal of Research in Microbiology
Manuscript Number:	Ms_SAJRM_103953
Title of the Manuscript:	ANTIMICROBIAL EFFECTS OF AQUEOUS EXTRACT OF GARCINIA KOLA NUTS ON SALMONELLA ISOLATES FROM CHICKEN DROPPINGS
Type of the Article	Original Research Article

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

Review Form 1.7

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<p>Compulsory REVISION comments</p> <p>1. Is the manuscript important for scientific community? (Please write few sentences on this manuscript) Yes, the study was well designed and performed appropriately</p> <p>2. Is the title of the article suitable? (If not please suggest an alternative title) Yes, adds value to the manuscript.</p> <p>3. Is the abstract of the article comprehensive? The abstract requires more information.</p> <p>4. Are subsections and structure of the manuscript appropriate? the structure and archival value of the draft is good</p> <p>5. Do you think the manuscript is scientifically correct? Yes, it is.</p> <p>6. Are the references sufficient and recent? If you have suggestion of additional references, please mention in the review form. The reference has to be updated.</p> <p>(Apart from above mentioned 6 points, reviewers are free to provide additional suggestions/comments)</p>	<p>The MS dealt with "ANTIMICROBIAL EFFECTS OF AQUEOUS EXTRACT OF GARCINIA KOLA NUTS ON SALMONELLA ISOLATES FROM CHICKEN DROPPINGS". The study was well designed and performed appropriately. It can be considered for publication in South Asian Journal of Research in Microbiology, given that any of my questions are answered by the publishers. In order to reinforce the structure and archival value of the MS, I invite the authors to consider the following recommendations to be referred to. Minor concerns listed here.</p> <ol style="list-style-type: none"> The manuscript requires additional information about antimicrobial and secondary contamination. Introduction part requires more information about various antimicrobial and secondary contamination. The authors must also explain the challenges of antimicrobial efficacy and inorganic pollutants in the environment and discuss toxicity profile. Discuss the following references in the manuscript. https://doi.org/10.1016/j.jhazmat.2021.127572; https://doi.org/10.1016/j.chemosphere.2021.131368; https://doi.org/10.1016/j.ijbiomac.2018.04.185; Authors should explain why authors have chosen aqueous extract of garcinia kola nuts. Authors should discuss the antimicrobial efficacy and kinetics in details. The following references to be added and discussed. https://doi.org/10.1007/s11356-021-13571-9; https://doi.org/10.1021/acs.iecr.0c06277; https://doi.org/10.1016/j.chemosphere.2021.131368; https://doi.org/10.3390/catal12050459; https://doi.org/10.3390/nano11123290; The authors should include the following references to be added in the introduction section https://doi.org/10.1016/j.compositesb.2018.06.034; https://doi.org/10.1016/j.jtice.2016.03.024; https://doi.org/10.1016/j.ultsonch.2018.06.012; Authors should mention about the significance of the work in the conclusion section. 	
<p>Minor REVISION comments</p> <p>1. Is language/English quality of the article suitable for scholarly communications?</p>	<p>Yes, the quality of English is good.</p>
