PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<p>Compulsory REVISION comments</p> <ol style="list-style-type: none"> 1. Is the manuscript important for scientific community? (Please write few sentences on this manuscript) 2. Is the title of the article suitable? (If not please suggest an alternative title) 3. Is the abstract of the article comprehensive? 4. Are subsections and structure of the manuscript appropriate? 5. Do you think the manuscript is scientifically correct? 6. Are the references sufficient and recent? If you have suggestion of additional references, please mention in the review form. <p>(Apart from above mentioned 6 points, reviewers are free to provide additional suggestions/comments)</p>	<p>The title is inappropriate: Suggestions given. The references included are insufficient. Many grammatical mistakes in the manuscript. Some sentences are corrected (given in green color in manuscript) The haematological parameters included in the study are insufficient. (RBC, Hb, PCV, MCV, MCH, MCHC etc)</p> <p>Broilers are white chickens that are generally reared in confinement (are they commercial broilers? Mention the name of commercial strain used) The White-leghorns are free-range indigenous breeds of chicken- This is highly objectionable because White Leghorn is not indigenous breed of Nigeria.</p> <p>In Table 2 the level of significance or P values are not mentioned.</p>	
<p>Minor REVISION comments</p> <ol style="list-style-type: none"> 1. Is language/English quality of the article suitable for scholarly communications? 	Yes	
<p>Optional/General comments</p>	Since this study is on hematology, the author could include all the hematology parameters. Hence study is insufficient.	

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	(If yes, Kindly please write down the ethical issues here in details)
