PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<p>Compulsory REVISION comments</p> <p>1. Is the manuscript important for scientific community? (Please write few sentences on this manuscript)</p> <p>2. Is the title of the article suitable? (If not please suggest an alternative title)</p> <p>3. Is the abstract of the article comprehensive?</p> <p>4. Are subsections and structure of the manuscript appropriate?</p> <p>5. Do you think the manuscript is scientifically correct?</p> <p>6. Are the references sufficient and recent? If you have suggestion of additional references, please mention in the review form.</p> <p>(Apart from above mentioned 6 points, reviewers are free to provide additional suggestions/comments)</p>	<p>The manuscript is about evaluation of plant's extract against hyperglycemia and what are compounds present in extract of this plant. In addition, the article presented some microscopic characteristics of the powder of this plant. It's an important manuscript for the scientific community about knowledge of some plant's activities.</p> <p>The title of the article is not suitable. The authors should change antidiabetic by antihyperglycemia. It concerns an induction of hyperglycemia and effects of plants on the reduction of hyperglycemia.</p> <p>The abstract should be updated with the content of the manuscript.</p> <p>Subsections and structure of the manuscript are appropriate but some sections need more details.</p> <p>The content of the manuscript is interesting but some efforts of writing should be done to permit it to be scientifically correct</p> <p>Some references are too older!!!!!! An updated is requested. The list of references should be retaken according author's guidelines</p>	
<p>Minor REVISION comments</p> <p>1. Is language/English quality of the article suitable for scholarly communications?</p>	<p>English is quite good quality. Some errors of vocabulary appear in the with some grammatical errors</p>	
<p>Optional/General comments</p>	<p>See manuscript for additional comment</p>
