PART 1: Review Comments

| | Reviewer's comment | Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here) |
|---|--|--|
| Compulsory REVISION comments 1. Is the manuscript important for scientific community? (Please write few sentences on this manuscript) 2. Is the title of the article suitable? (If not please suggest an alternative title) 3. Is the abstract of the article comprehensive? 4. Are subsections and structure of the manuscript appropriate? 5. Do you think the manuscript is scientifically correct? 6. Are the references sufficient and recent? If you have suggestion of additional references, please mention in the review form. (Apart from above mentioned 6 points, reviewers are free to provide additional suggestions/comments) | This paper describes the use of IoT in the growing environment of crops. It is thought that some of the content is worthy of being published, but there is some question as to whether this can be treated as the content of a paper (review article). If it is a thesis, it should discuss the pros and cons of multiple conditions, and should not be confined to the explanation of one device. Even if it is a review article, it should be added because concrete comparison with other methods is necessary. In addition, it is not preferable to put "IoT" in the title. This is because it is not an abbreviation commonly known to many people. Please resubmit after making additions and corrections. | |
| Minor REVISION comments 1. Is language/English quality of the article suitable for scholarly communications? | Fix language issues | |
| Optional/General comments | Check journal guidelines | |

PART 2:

| | Reviewer's comment | Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here) |
|---|--|--|
| Are there ethical issues in this manuscript? | <i>(If yes, Kindly please write down the ethical issues here in details)</i> | |
