## Review Form 1.7

### PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<p><b>Compulsory</b> REVISION comments</p> <p>1. <b>Is the manuscript important for scientific community?</b> (Please write few sentences on this manuscript)</p> <p>2. <b>Is the title of the article suitable?</b> (If not please suggest an alternative title)</p> <p>3. <b>Is the abstract of the article comprehensive?</b></p> <p>4. <b>Are subsections and structure of the manuscript appropriate?</b></p> <p>5. <b>Do you think the manuscript is scientifically correct?</b></p> <p>6. <b>Are the references sufficient and recent? If you have suggestion of additional references, please mention in the review form.</b></p> <p><b>(Apart from above mentioned 6 points, reviewers are free to provide additional suggestions/comments)</b></p>	<p>I found the manuscript relevant since the content justifies the title of the manuscript</p> <p>The title is fairly adequate but it would have been better to discard the three words ending the title, " A review on the nutritional properties and health benefits of finger millet"</p> <p>A lot of errors were noticed on he abstract including use of wrong terminology, inconclusive phrases, punctuation. The entire manuscript needs to be edited by an English editor. Fairly adequate</p> <p>Most of the nutritional and health benefits claims were supported by references hence the manuscript may be considered to be scientifically correct</p> <p>The references are not adequate for this manuscript to be considered a review paper. The journal guide line stipulates 50 to 150 references. The manuscript reference of 31 references qualifies it to be considered a mini review.</p> <p>The citation in the body of the manuscript did not follow a definite pattern. The author uses both numbering system which the journal stipulated as well as style of author's name and year. Even the numbering the body of the manuscript were not ordered. Some numbers that appear in the reference were missing in the body of the manuscript.</p>	
<p><b>Minor</b> REVISION comments</p> <p>1. <b>Is language/English quality of the article suitable for scholarly communications?</b></p>	<p>The English sentences/phrases/words as used in the manuscript need to be seriously revised and edited</p>	
<p><b>Optional/General</b> comments</p>	<p>English or botanical name ought to be used through out the body of the manuscript. It was observed that the author most often used the local names even in in the sub-titling.</p> <p>The horizontal lines in the figure 1 should be removed</p> <p>The nutritional composition as presented after figure 1 ought to be in tabular form.</p> <p>The horizontal lines in Table 1 should be removed except the first top two lines enclosing the headings and the last line.</p> <p>Referencing style as used in the manuscript did not follow that stipulated by the journal.</p>	

### PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<p>Are there ethical issues in this manuscript?</p>	<p><i>(If yes, Kindly please write down the ethical issues here in details)</i></p>
