<p><b>Minor</b> REVISION comments</p> <p>1. <b>Is language/English quality of the article suitable for scholarly communications?</b></p>	<p><b>Abstract: Minor Corrections</b> Meso compounds designated in this way by Cahn-Ingold-Prelog rules do not change the latter assertion: one can assert that molecules of this group are formed of two imaginary enantiomeric halves separated by an imaginary mirror plane of symmetry." The word "surprisals" is not a correct English word. It seems to be a typographical error or a misspelling. The correct word should be "surprises."</p> <p><b>Introduction: Minor Corrections</b> 1. In the sentence "In an equilateral triangle geometrical plane of symmetry cuts a point and a line," the phrase "geometrical plane of symmetry" should be changed to "a geometrical plane of symmetry" for clarity and proper article usage.</p>	
<p><b>Optional/General</b> comments</p>	<p>The paper demonstrates a clear and logical flow of ideas. However, attention should be given to improving the clarity and precision of the language used throughout the manuscript, including sentence structure and word choice.</p> <p>The paper includes a comprehensive list of references that are relevant to the topic. However, there may be a few additional key references that could be included to provide a more complete context for the study.</p>
