PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments 1. Is the manuscript important for scientific community? (Please write few sentences on this manuscript) 2. Is the title of the article suitable? (If not please suggest an alternative title) 3. Is the abstract of the article comprehensive? 4. Are subsections and structure of the manuscript appropriate? 5. Do you think the manuscript is scientifically correct? 6. Are the references sufficient and recent? If you have suggestion of additional references, please mention in the review form. (Apart from above mentioned 6 points, reviewers are free to provide additional suggestions/comments)	This paper has a potential to be accepted, but some important points should be reformed. Data collection forms (indicating the optionality of providing information) are not attached. Due to the duration of the study as well as the number of cases studied, it is statistically flawed.	
Minor REVISION comments 1. Is language/English quality of the article suitable for scholarly communications?	There is written problem in whole the text. All punctuation, including commas, and ..., need to be revised. The tables are not satisfactory and clear. The references are not suitable, sufficient, relevant, and include up to date sources.	
Optional/General comments
