This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<https://www.journalajrn.com/index.php/AJRNH/editorial-policy> )

### PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<p><b>Compulsory</b> REVISION comments</p> <p>1. <b>Is the manuscript important for scientific community?</b> (Please write few sentences on this manuscript)</p> <p>2. <b>Is the title of the article suitable?</b> (If not please suggest an alternative title)</p> <p>3. <b>Is the abstract of the article comprehensive?</b></p> <p>4. <b>Are subsections and structure of the manuscript appropriate?</b></p> <p>5. <b>Do you think the manuscript is scientifically correct?</b></p> <p>6. <b>Are the references sufficient and recent? If you have suggestion of additional references, please mention in the review form.</b></p> <p><b>(Apart from above mentioned 6 points, reviewers are free to provide additional suggestions/comments)</b></p>	<p>1. <b>Yes. Nosocomial infections and the prevention are important topic in healthcare. It poses a significant burden on the patients and healthcare system. Preventing nosocomial infection is a key priority for healthcare system. The awareness campaigns for healthcare staff and patients are essential.</b></p> <p>2. <b>The title is too long, lose its focus and intention of the research purpose, for academic writing it will be better for the title of the manuscript not exceed 15 words. I would like to suggest another alternative title “Empowering the knowledge of Nosocomial infection and its prevention”. This title conveys the focus of the research and reflects the scope and purpose of the research study.</b></p> <p>3. <b>The information provided in the abstract is sufficient nevertheless the style of writing needs a little bit of adjustment.</b></p> <p>4. <b>For academic writing, this manuscript needs more scientific terms, for example Research Design, Finding and discussion etc it needs adjustment and must write in paragraph.</b></p> <p>5. <b>The data of the manuscript is acceptable. Again it is the writing method needs adjustment.</b></p> <p>6. <b>The references are recent nevertheless the method of listing the reference should follow APA reference writing style.</b></p>	
<p><b>Minor</b> REVISION comments</p> <p>1. <b>Is language/English quality of the article suitable for scholarly communications?</b></p>	Acceptable	
<p><b>Optional/General</b> comments</p>	Good effort for the researcher to venture into this issue.	

### PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<p><b>Are there ethical issues in this manuscript?</b></p>	<p><i>(If yes, Kindly please write down the ethical issues here in details)</i></p>
