

## Review Form 1.7

Journal Name:	Asian Journal of Biology
Manuscript Number:	Ms_AJOB_99511
Title of the Manuscript:	MANGROVE FOREST OF ROSWAR ISLAND, IN THE NATIONAL PARK OF CENDERAWASIH BAY, THE PROVINCE OF WEST PAPUA
Type of the Article	ORIGINAL RESEARCH ARTICLE

### General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<https://www.journalajob.com/index.php/AJOB/editorial-policy> )

### PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<p><b>Compulsory</b> REVISION comments</p> <ol style="list-style-type: none"> <li>1. <b>Is the manuscript important for scientific community?</b> (Please write few sentences on this manuscript)</li> <li>2. <b>Is the title of the article suitable?</b> (If not please suggest an alternative title)</li> <li>3. <b>Is the abstract of the article comprehensive?</b></li> <li>4. <b>Are subsections and structure of the manuscript appropriate?</b></li> <li>5. <b>Do you think the manuscript is scientifically correct?</b></li> <li>6. <b>Are the references sufficient and recent? If you have suggestion of additional references, please mention in the review form.</b></li> </ol> <p><b>(Apart from above mentioned 6 points, reviewers are free to provide additional suggestions/comments)</b></p>		
<p><b>Minor</b> REVISION comments</p> <ol style="list-style-type: none"> <li>1. <b>Is language/English quality of the article suitable for scholarly communications?</b></li> </ol>		
<p><b>Optional/General</b> comments</p>	<p>The study on mangrove Forest Ecosystems is essential for preserving Biodiversity and is integral to protecting Coastal Zone Ecosystems. The study is critical as 20% of the world's mangrove forests are located in Indonesia. The objectives are clearly stated with Rowsar Island as the study area. Methodology is devised as per standard Research process. Data collection (observation) was done based on plot, tree and seedling varying spatial scales. Analysis of mangrove forests was done at different sampling sites with clearly defined variables at Tree level, at skate level and at seedling level.</p> <p>The conclusions based on this study are useful for Administrators and conservationists to sustainably manage the Mangrove forest Ecosystems.</p>
