

Comments:

The paper is accepted with minor revision and correction.

- Please, once you write abbreviations, you should use them thereafter in all parts of the paper text. Please, recheck all of them.
- **Abstract**: Please, delete these sentences “The animals were housed in solid bottom polypropylene cages under standard environmental condition in a well-ventilated animal house and allowed to acclimatize for 2 weeks. The animals were allowed free access to water and were fed with standard rat chow”. No details are required in abstract.
- Also, correct this “Group 2, 3” to be “while Groups 2, 3”.
- **Keywords** are not appearing. Please, add at least 3 following the end of the abstract.
- **INTRODUCTION**: The words “Clomiphene citrate” appear in the beginning of many paragraphs. Please, join each two paragraphs together & write “Clomiphene citrate” in the second sentence by “It”.
- For this “The aim of this study is to evaluate the Effect of Clomiphene on the Hormonal profile of female”; Please, add the importance of this evaluation with writing a reference.
- **METHODS**: You write this “They were allowed free access to food and clean water plus the test drug for 11 days during the experimental period” many times. Please, write it once with methods for all groups.
- **Limitation**: Please, delete this sentence “During the process of this study, the distance from my residential location to the site of the laboratory analysis was a challenge”.
