

**Editor's Comment:**

We are sincerely grateful to all who reviewed this manuscript for their valuable time and efforts; however, it is clear that the authors of this paper did not follow the guidelines and procedures of the journal for publishing, as they failed to carry out the hands-on and original research necessary to come up with the article's abstract in accordance with SDi Tempelt.

The research is of sufficient quality to warrant publication. However, after making the necessary adjustments.
