

Review Form 1.7

| | |
|--------------------------|--|
| Journal Name: | International Journal of Environment and Climate Change |
| Manuscript Number: | Ms_IJECC_101101 |
| Title of the Manuscript: | INFLUENCE OF SAGARIKA-LIQUID WITH INORGANIC FERTILIZERS FOR ENCHANING THE SOIL HEALTH AND YIELD OF GREEN GRAM (Vigna radiata L.) |
| Type of the Article | Original Research Article |

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<https://www.journalijecc.com/index.php/IJECC/editorial-policy>)

PART 1: Review Comments

| | Reviewer's comment | Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here) |
|--|---|---|
| <p>Compulsory REVISION comments</p> <p>1. Is the manuscript important for scientific community? (Please write few sentences on this manuscript)</p> <p>2. Is the title of the article suitable? (If not please suggest an alternative title)</p> <p>3. Is the abstract of the article comprehensive?</p> <p>4. Are subsections and structure of the manuscript appropriate?</p> <p>5. Do you think the manuscript is scientifically correct?</p> <p>6. Are the references sufficient and recent? If you have suggestion of additional references, please mention in the review form.</p> <p>(Apart from above mentioned 6 points, reviewers are free to provide additional suggestions/comments)</p> | <p>1-</p> <p>a) The introduction does not sufficiently layout the background of the study</p> <p>b) The globe is currently in the throes of catastrophic environmental degradation form various anthropometric activities including crop production and animal husbandry, warring, exploitation of mineral and oil resources, just to mention a few. Thus, research into the role of use of fertilizers is a welcome contribution towards better utilization of the finite resources on earth.</p> <p>c) The internally cited publishers for the claims stated are not properly placed so as to establish their link</p> <p>d) There is lack of coherence for example how does the potassium issue matter to the plant of interest?!</p> <p>2- The title needs review: The title perhaps would sound better if 'influence' is replaced by 'effects.'</p> <p>3-The organisation of the abstract does not follow the usual format, viz; - introduction, methodology, results and conclusion format.</p> <p>4- The structuring is appropriate, the discussion does not give a comparative view of the study findings and available literature. No references are made from the existing/previous literature/studies</p> <p>5- NOT in its current format and state</p> <p>6- The references are insufficient and too few</p> | |
| <p>Minor REVISION comments</p> <p>1. Is language/English quality of the article suitable for scholarly communications?</p> | After the recommendations above have been implemented | |
| <p>Optional/General comments</p> | | |

PART 2:

| | Reviewer's comment | Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here) |
|--|---|---|
| <p>Are there ethical issues in this manuscript?</p> | (If yes, Kindly please write down the ethical issues here in details) | |
