Review Form 1.7

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<p>Compulsory REVISION comments</p> <ol style="list-style-type: none"> Is the manuscript important for scientific community? (Please write few sentences on this manuscript) Is the title of the article suitable? (If not please suggest an alternative title) Is the abstract of the article comprehensive? Are subsections and structure of the manuscript appropriate? Do you think the manuscript is scientifically correct? Are the references sufficient and recent? If you have suggestion of additional references, please mention in the review form. <p>(Apart from above mentioned 6 points, reviewers are free to provide additional suggestions/comments)</p>	<p>General Comments</p> <p>From my point of view, it is a very interesting topic and simultaneously it seems that to the best of my knowledge is an important research which was conducted in Tseminyu district of Nagaland. Totally 60 respondents were randomly selected and interviewed from the district. The data was gathered in the form of prestructured interview schedule. The study revealed that average cost of cultivation of pineapple per hectare was incurred Rs. 96056.8 which was found to be Rs. 78510.5, Rs. 1,00,993.6, and Rs. 1,08,666.5 per hectare on Marginal, Small and Semi-medium respectively. Input-output ratio related to cost C was (1:1.68) (1:1.61) and (1:1.68) on Marginal, Small and Semi-medium farmers respectively. When compared to Marginal farmers semi-medium farmers employed rotavator and cultivator for a longer hours which resulted in higher total cost of cultivation per ha. The paper consists of the sections: Introduction, Research Methodology, Analysis of Data and Conclusion.</p> <p>However, I find some recommendations:</p> <ol style="list-style-type: none"> The abstract must contains the main purpose of the paper, the research method used in the research and the main contributions. It would be very useful to add in the "Introduction" section the purpose, objectives and hypothesis of the research. We consider that the introduction should specify the novelty of the paper compared to other papers published in this area. I consider an econometric model will increase the quality of the paper. In the same time, I consider the literature review section cannot missing from the paper and that is why we consider that the literature is not enough (only 5 papers) and that is why, we recommend the authors to refer to other recent works indexed in Web of Science, Scopus, Emerald, Cambridge, and of course MDPI Journals. We suggest that the authors cite papers published in MDPI journals and Web of Science Journals, such as: <ol style="list-style-type: none"> Batrancea L., Batrancea I., Moscviciov A. (2009), The Roots of the World Financial Crisis, Annals of Faculty of Economics, 3(1):57-62. Batrancea, L., Rathnaswamy, M.K. & Batrancea, I. A Panel Data Analysis on Determinants of Economic Growth in Seven Non-BCBS Countries. <i>J Knowl Econ</i> (2021). https://doi.org/10.1007/s13132-021-00785-y Batrancea LM.(2021) An Econometric Approach on Performance, Assets, and Liabilities in a Sample of Banks from Europe, Israel, United States of America, and Canada. <i>Mathematics</i>. 2021; 9(24):3178. https://doi.org/10.3390/math9243178/. <p>We recommend the authors to number the paragraphs: 1. Introduction; 2.Literature review; 3. Methods and Results, Discussions and Conclusions. In conclusion, the article should be thoroughly rebuilt (changes in structure recommended above). It should also be enhanced with a review of the literature adequate to the subject and a broader interpretation and commentary of the research results.</p>	
<p>Minor REVISION comments</p> <ol style="list-style-type: none"> Is language/English quality of the article suitable for scholarly communications? 	<p>Yes</p>	

Review Form 1.7

Optional/General comments	The Manuscript Ms_IJECC_101711„Socio Economic Analysis and Marketing Of Poovan And Nendran Banana In Thiruvananthapuram District Of Kerala” needs careful English proofreading because there are some shortcomings. For instance, the article “the” is sometimes missing in front of nouns, the message in some paragraphs is not clear enough.” needs careful English proofreading because there are some shortcomings. For instance, the article “the” is sometimes missing in front of nouns, the message in some paragraphs is not clear enough.
