PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<p>Compulsory REVISION comments</p> <ol style="list-style-type: none"> 1. Is the manuscript important for scientific community? (Please write few sentences on this manuscript) 2. Is the title of the article suitable? (If not please suggest an alternative title) 3. Is the abstract of the article comprehensive? 4. Are subsections and structure of the manuscript appropriate? 5. Do you think the manuscript is scientifically correct? 6. Are the references sufficient and recent? If you have suggestion of additional references, please mention in the review form. <p>(Apart from above mentioned 6 points, reviewers are free to provide additional suggestions/comments)</p>	<p>The review discusses the management of hyponatremia and hyperkalemia, highlighting a study that investigated the use of salt tablets in treating euvoletic hyponatremia, showing a significant improvement in serum sodium levels compared to the non-salt tablet group. It also mentions the association of severe COVID-19 infection with hyponatremia, often related to vomiting and/or diarrhea, which was not observed in the presented case.</p>	
<p>Minor REVISION comments</p> <ol style="list-style-type: none"> 1. Is language/English quality of the article suitable for scholarly communications? 	<p>Overall, this case report provides valuable insights into a rare but important side effect of LMWH use, emphasizing the need for careful monitoring of electrolyte levels in hospitalized patients receiving these medications, particularly in the context of COVID-19 infection.</p>	
<p>Optional/General comments</p>	<p>The review is based on the information provided in the case report and does not reflect personal experience or opinion.</p>	

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<p>Are there ethical issues in this manuscript?</p>	<p><i>(If yes, Kindly please write down the ethical issues here in details)</i></p>
