

## Review Form 1.7

Journal Name:	<b>International Journal of Plant &amp; Soil Science</b>
Manuscript Number:	<b>Ms_IJPSS_101610</b>
Title of the Manuscript:	<b>Standardization of organic production of Strawberry (Fragaria x ananassa Duch.) cv. Winter dawn</b>
Type of the Article	<b>Original Research Article</b>

### General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<https://www.journalijpss.com/index.php/IJPSS/editorial-policy> )

### PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<p><b>Compulsory</b> REVISION comments</p> <p>1. <b>Is the manuscript important for scientific community?</b> (Please write few sentences on this manuscript)</p> <p>2. <b>Is the title of the article suitable?</b> (If not please suggest an alternative title)</p> <p>3. <b>Is the abstract of the article comprehensive?</b></p> <p>4. <b>Are subsections and structure of the manuscript appropriate?</b></p> <p>5. <b>Do you think the manuscript is scientifically correct?</b></p> <p>6. <b>Are the references sufficient and recent? If you have suggestion of additional references, please mention in the review form.</b></p> <p><b>(Apart from above mentioned 6 points, reviewers are free to provide additional suggestions/comments)</b></p>	<p>1. I can see that the current experiment suggests that treatment T5, which includes vermicompost and vermiwash, performed best in terms of growth and treatment T7, which includes poultry manure and cow pat pit manure, performed best in terms of yield, quality, and organoleptic parameters. Additionally, the highest B:C ratio was found in treatment T7, which suggests that using poultry manure and cow pat pit manure can enhance strawberry production. These findings could be useful for farmers who are interested in organic strawberry production.</p> <p>2. The title is appropriate.</p> <p>3. The abstract is comprehensive.</p> <p>4. Yes</p> <p>5. Yes</p> <p>6. The references are sufficient and recent.</p>	
<p><b>Minor</b> REVISION comments</p> <p>1. <b>Is language/English quality of the article suitable for scholarly communications?</b></p>	<p>Yes. Corrections to several grammatical mistakes need to be completed.</p>	
<p><b>Optional/General</b> comments</p>	<p>Relevant and important research.</p>	

### PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<p><b>Are there ethical issues in this manuscript?</b></p>	<p>(If yes, Kindly please write down the ethical issues here in details)</p>
