

Review Form 1.7

Journal Name:	South Asian Journal of Research in Microbiology
Manuscript Number:	Ms_SAJRM_100654
Title of the Manuscript:	Antimicrobial Activity of Lactic Acid Bacteria Against Food-Borne Pathogens from Selected Fruits Sold In Major Markets, Ibadan, Nigeria.
Type of the Article	Original Research Article

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<p>Compulsory REVISION comments</p> <p>1. Is the manuscript important for scientific community? (Please write few sentences on this manuscript)</p> <p>2. Is the title of the article suitable? (If not please suggest an alternative title)</p> <p>3. Is the abstract of the article comprehensive?</p> <p>4. Are subsections and structure of the manuscript appropriate?</p> <p>5. Do you think the manuscript is scientifically correct?</p> <p>6. Are the references sufficient and recent? If you have suggestion of additional references, please mention in the review form.</p> <p>(Apart from above mentioned 6 points, reviewers are free to provide additional suggestions/comments)</p>	<p>1. This article is important for scientific community. However, The author need to give detailed information on the research. There are lots of questions that need answers. The author need to</p> <ol style="list-style-type: none"> state how the LAB and food borne pathogen were isolated. How identification of the isolates were done Were the LAB isolated from healthy fruits used against the antibiotic resistance pathogens isolated from unhealthy fruits? (The research would be more interesting if this is well looked into and probably be the aim of the study). <p>2. No. The author need to be more explicit on the title. Suggested title: Antimicrobial activity of lactic acid bacteria against food pathogens isolated from selected fruits sold in Major Markets in Ibadan, Oyo State, Nigeria.</p> <p>3. The abstract is not comprehensive enough. The author did not state the methods used for isolation and identification of all the isolates.</p> <p>4. The subsections and structure of the manuscript is not appropriate. The author need to be orderly especially in the materials and methods, result and discussion. The author need to be regular with font size: times new roman 12.</p> <p>5. The manuscript is scientifically correct but the author need to state the method of identifying the isolates to specie level.</p> <p>6. References are recent and up to date</p>	
<p>Minor REVISION comments</p> <p>1. Is language/English quality of the article suitable for scholarly communications?</p>	Yes	
<p>Optional/General comments</p>	The write-up need to be well written and organised.
