

Editor's Comment:

Regarding the previous sent paper:

1. Shortened title: Influence of FDI on China's green marine economy
2. Abstract to be written as a narrative text. Not by subchapters.
3. Urgent, some of the points included in Conclusions part to be moved in Findings and Discussions.
4. References are wrong written:

authors in alphabetical order (therefore, the first one is Ding Lili et al., next Guo Jing., Hui..and at the end the authors with W, Y, Z.

Immediately after the name (s), the publishing year and the rest of data regarding the cited paper, book.

However, indeed, it needs, in the Literature Review, of other references outside China, including the presentation of this complex term of FDI.
