

Editor's Comment:

It can be considered.

However the figures have moved from their place. In the section Benchmarking and evaluating QNN, the author has only mentioned the metrics that are generally used . The section headings are therefore misleading. The section numbering needs to be looked into.

The article can be published after the corrections are incorporated .

Editor's Details:

Dr. G. Sudheer
Professor, GVP College of Engineering for Women, Madhurawada, India.
