

**Editor's Comment:**

I have checked this manuscript, and it need a revision. Some comments are as follows.

1. Please authors add groundwater management in the title of this paper, and it is better to rewrite the abstract.
2. Authors need add some recent references (2020-2023).
3. Authors need polish English writing, and "go through the paper and do a quick check on probable grammatical errors and existing spelling mistakes."
