

Review Form 1.6

Journal Name:	Journal of Advances in Mathematics and Computer Science
Manuscript Number:	Ms_JAMCS_86625
Title of the Manuscript:	Polynomial Time Attack For Breaking Modulus of the Form $N=p^r q^s$
Type of the Article	Original Research Article

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	<p>I suggest to include the following reference for Theorem 1.1.</p> <p>R. Korhonen, Approximation of real numbers with rational number sequences, Proc. Amer. Math. Soc., 137(1), (2009), 107-113.</p> <p>Title: Polynomial Time Attack for Breaking Modulus of the form $N=p^r q^s$ In this paper, the author has provided two polynomial attacks to break the modulus of the form $N=p^r q^s$. The highlights of this paper are Algorithms 1 through 3. The procedure has been illustrated by Examples 2.1 and 2.2. The method of breaking the modulus is very interesting. The paper is worthy of publication in JAMCS. I suggest to include the following reference for Theorem 1.1.</p> <p>R. Korhonen, Approximation of real numbers with rational number sequences, Proc. Amer. Math. Soc., 137(1), (2009), 107-113.</p> <p>With this inclusion of this reference, I recommend the paper for publication in JAMCS.</p>	
Minor REVISION comments		
Optional/General comments		

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	<u>(If yes, Kindly please write down the ethical issues here in details)</u>
