PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments		
Minor REVISION comments	The manuscript brings new and very interesting results that will certainly be fundamental for the understanding of the schological aspects of Synodontis nigrita, and consequently will support the implementation of conservation and management measures for the species. Overall, the article is quite complete. I have a few small comments, mostly in the discussion, which are highlighted in text boxes throughout the document, in word.	
Optional/General comments		

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	(If yes, Kindly please write down the ethical issues here in details)
