PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)

Review Form 1.7

<p>Compulsory REVISION comments</p> <p>1. Is the manuscript important for scientific community? (Please write few sentences on this manuscript)</p> <p>2. Is the title of the article suitable? (If not please suggest an alternative title)</p> <p>3. Is the abstract of the article comprehensive?</p> <p>4. Are subsections and structure of the manuscript appropriate?</p> <p>5. Do you think the manuscript is scientifically correct?</p> <p>6. Are the references sufficient and recent? If you have suggestion of additional references, please mention in the review form.</p> <p><u>(Apart from above mentioned 6 points, reviewers are free to provide additional suggestions/comments)</u></p>	<p>The answers to the first five questions are :</p> <p>1) The topic is novel and up-to-date, considering the broader diffusion of this chronic liver disease.</p> <p>2) The Title is suitable</p> <p>3) The Abstract is complete</p> <p>4) and 5) Manuscript well-structured and correct.</p> <p>5) References to be at large improved</p> <p>Authors correctly state that...According to recent studies, NAFLD is becoming increasingly prevalent, affecting approximately 25% of the world's population. It is also closely associated with obesity, insulin resistance, and metabolic syndrome ...but they should add that there is a consistent link between NAFLD and extra hepatic cancers, such as the most severe one that is bladder cancer, as evident in...Association of NAFLD and Insulin Resistance with Non Metastatic Bladder Cancer Patients: A Cross-Sectional Retrospective Study. J Clin Med. 2021 Jan 18;10(2):346. doi: 10.3390/jcm10020346. PMID: 33477579; PMCID: PMC7831331.</p> <p>Authors state that...Furthermore, more than 50% of patients undergoing bariatric surgery are accompanied by NASH. ...for this reason obesity and mainly abdominal obesity should be drastically reduced, as evident in... Is visceral fat reduction necessary to favour metabolic changes in the liver? J Gastrointestin Liver Dis. 2012 Jun;21(2):205-8. PMID: 22720311</p> <p>Authors should stress the intra and inter operator variability when using US to diagnose NAFLD, as evident in....World J Gastroenterol. 2019 Oct 28; 25(40): 6053–6062. Published online 2019 Oct 28. doi: 10.3748/wjg.v25.i40.6053</p> <p>Authors should add among the limitations to the study the reduced sample size of the selected population.</p>	
<p>Minor REVISION comments</p> <p>1. Is language/English quality of the article suitable for scholarly communications?</p>	<p>Some typos should be amended</p>	
<p>Optional/General comments</p>		

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<p>Are there ethical issues in this manuscript?</p>	<p><i>(If yes, Kindly please write down the ethical issues here in details)</i></p>
