

Editor's Comment:

On going through the article, I found the following:

1. Title is suitable
2. Abstract is relevant.
3. Introduction is detailed and informative.
4. Objective is suitable.
5. Literature review is appropriate.
6. Methodology is discussed.
7. Analysis is self explanatory.
8. Summary and conclusion are adequate.
9. References are sufficient.

I recommend the article titled "Analysis Of Process Re-Engineering On Organizational Performance Of Nhif In Northern Region, Kenya" for publication.
