

**Editor's Comment:**

The manuscript is of obvious practical interest and the study well conducted.

The corrections suggested by the Reviewers are correctly carried out

An additional requirement is to be considered by the Authors : in Abstract no abbreviations are allowed before having been made explicit at first (even when further defined below in the keywords). Thus, please made explicit in the Abstract itself the complete designation of FYM and RDF when they first appear. After in the Abstract the abbreviations may be used.

When these small corrections are made, the revised version of the manuscript is acceptable for publication in IJECC.
