

Editor's Comment:

I have read the reviewer's comments about the manuscript 2023/IJTDH/100981, and the improvements included by the authors.

Manuscript Title: Lessons Learnt from the Management of Severe COVID-19 Disease in a 93-year-old with Chronic Co-Morbidities at a resource-constrained Centre in Nigeria – A Retrospective Single Case Study

According to the reviewer's criticisms, the manuscript 2023/IJTDH/100981 is potentially suitable for publication in International Journal of TROPICAL DISEASE & Health. However, I agree when reviewers indicate that review by an Ethics Committee and reporting of the approval protocol for this study is necessary, as the study involves hospital patient data. Failure to obtain ethical approval prior to the study constitutes a serious breach of research ethics.
