PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	<p>This article provides important information regarding the bio-fortification of cereals based bread using OFSP for alleviating of vitamin-A deficiency, in the context in which current global food concerns are directed towards product quality, diversification of production and renewal of the product range, thus aiming to obtain products with high nutritional value, without additives, preservatives or other compounds with a negative impact on the human body. The results are interesting and important to researchers in relevant fields of food industry.</p> <p>Some corrections should be made in order to publish the article.</p> <p>Please, take into account the following recommendations to improve this manuscript:</p> <ul style="list-style-type: none"> - the general presentation of the manuscript should be reviewed, the extra spaces between words or the lack of spaces between titles, subtitles, figures, tables and text according to the requirements of the journal; - I recommend a revision of the manuscript according to the requirements of the journal (English, technical editing, bibliography, etc.); - I recommend the complete insertion of the table on a single page (see table 1, pages 5-6, table 2, pages 9-10); - I recommend a critical approach to the literature to enable analysis and interpretation of the information, development of an objective viewpoint and the setting of clear objectives; - For the publication of this study, I recommend supplementing it with other determinations to support its importance and opportunity (chemical composition of OFSP, physical characteristics of bread, sensory evaluation of bread samples to determine consumer acceptance, nutritional composition, functional attributes). <p>I recommend a carefully check of the full manuscript to correct any grammatical or syntax error.</p> <p>Based on the above mentioned, I recommend this paper for publication after performing the suggested corrections.</p>	
Minor REVISION comments		
Optional/General comments		

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
