PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments 1. Is the manuscript important for scientific community? (Please write few sentences on this manuscript) 2. Is the title of the article suitable? (If not please suggest an alternative title) 3. Is the abstract of the article comprehensive? 4. Are subsections and structure of the manuscript appropriate? 5. Do you think the manuscript is scientifically correct? 6. Are the references sufficient and recent? If you have suggestion of additional references, please mention in the review form. (Apart from above mentioned 6 points, reviewers are free to provide additional suggestions/comments)	- In introduction, you mentioned that laparotomy is usually the method to treat paraovarian cysts, this is an old concept because laparoscopy is considered as the treatment of choice for paraovarian cyst. - The references you cited are an old. More Manuscripts describing paraovarian cysts are published recently. You can find updated informations in them. - Citation should be mentioned in manuscript in order. In introduction you cited references 13, 14, then in discussion you started citation with reference 1. This should be corrected. - Are there intraoperative images to be added? - This manuscript needs major revision before considering for publication. Good luck	
Minor REVISION comments 1. Is language/English quality of the article suitable for scholarly communications?	Yes	
Optional/General comments		

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	(If yes, Kindly please write down the ethical issues here in details)
