<p><b>Minor</b> REVISION comments</p> <ol style="list-style-type: none"> <li>1. <b>Is language/English quality of the article suitable for scholarly communications?</b></li> </ol>	<p>Generally, the current study reflects the scientific rigours of research and is in keeping with the high standard of quantitative inquiry. The topic is relevant, the concepts were well articulated, the idea logically flowed from start to ending, and there was a robust discussion with the findings and the literature. However, the abstract is not completed and this must be done before publication. In addition, there are many instance of lengthy sentences, and grammatical issues throughout the paper. I have corrected many of the errors; but, there are a few that must be reviewed and addressed by the author.</p>	
<p><b>Optional/General</b> comments</p>
