PART 1: Review Comments

| | Reviewer's comment | Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here) |
|---|--|---|
| Compulsory REVISION comments 1. Is the manuscript important for scientific community? (Please write few sentences on this manuscript) 2. Is the title of the article suitable? (If not please suggest an alternative title) 3. Is the abstract of the article comprehensive? 4. Are subsections and structure of the manuscript appropriate? 5. Do you think the manuscript is scientifically correct? 6. Are the references sufficient and recent? If you have suggestion of additional references, please mention in the review form. (Apart from above mentioned 6 points, reviewers are free to provide additional suggestions/comments) | Yes, It might help in research regarding chromosomal abnormality in infertile couples Yes Abstract is comprehensive. But the line about age in infertile couple is coming abruptly in results during the chromosomal analysis. It should be a part of initial assessment. Here the association of age with chromosomal abnormality should be rather mentioned Yes Yes Yes | |
| Minor REVISION comments 1. Is language/English quality of the article suitable for scholarly communications? | Sterility should be replaced by Infertility. | |
| Optional/General comments | 1. The association of chromosomal aberration with age, gender, and previous abortion is discussed in discussion but not clearly denoted in results | |

PART 2:

| | Reviewer's comment | Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here) |
|---|--|---|
| Are there ethical issues in this manuscript? | <i>(If yes, Kindly please write down the ethical issues here in details)</i> | |
