

**Editor's Comment:**

Having regard to the positive results and outcomes of the review process, that involved 4 reviewers, I recommend accepting the manuscript 2023/AJRAF/96714 "Jasmine (Jasminum sambac (L.) Aiton): Potential Utilization and Bioactivity" for publication as a review article.

I recommend clearly indicating the sources of the two figures/photos. Furthermore, conclusions section should be discursive, not bullet points.
