

Review Form 1.7

Journal Name:	Asian Journal of Research in Crop Science
Manuscript Number:	Ms_AJRCS_96760
Title of the Manuscript:	EFFICACY OF RHIZOBACTERIA IN WEED DYNAMICS OF CROP PRODUCTION RHYTHM
Type of the Article	Review Article

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<https://www.journalajrcs.com/index.php/AJRCS/editorial-policy>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments 1. Is the manuscript important for scientific community? (Please write few sentences on this manuscript) 2. Is the title of the article suitable? (If not please suggest an alternative title) 3. Is the abstract of the article comprehensive? 4. Are subsections and structure of the manuscript appropriate? 5. Do you think the manuscript is scientifically correct? 6. Are the references sufficient and recent? If you have suggestion of additional references, please mention in the review form. (Apart from above mentioned 6 points, reviewers are free to provide additional suggestions/comments)	Molecular techniques are becoming increasingly sophisticated in various biological areas, including microbial techniques. Crop rhythm is the special feature of the paper This paper explains how they are used in this area Title selection is suitable Include the techniques and field study What methods are used to monitor crop rhythms? Phytotoxic studies are described in the paper https://www.mdpi.com/journal/agronomy/special_issues/Weed_Population_Dynamics	
Minor REVISION comments 1. Is language/English quality of the article suitable for scholarly communications?	Language is Good	
Optional/General comments	What are the methods to understand about plant- microbe interaction? How does helpful to crop production	

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
