<b>Compulsory</b> REVISION comments		
<p>1. Is the manuscript important for scientific community? (Please write few sentences on this manuscript)</p> <p>2. Is the title of the article suitable? (If not please suggest an alternative title)</p> <p>3. Is the abstract of the article comprehensive?</p> <p>4. Are subsections and structure of the manuscript appropriate?</p> <p>5. Do you think the manuscript is scientifically correct?</p> <p>6. Are the references sufficient and recent? If you have suggestion of additional references, please mention in the review form. <b>(Apart from above mentioned 6 points, reviewers are free to provide additional suggestions/comments)</b></p>	<p>Yes. Yes. Behcets disease should start with capital 'B'. In my opinion, it falls under the category of 'case reports' not 'original article'</p> <p>Yes 4. Yes. In para 2, line 10 of the 'Results and Discussion section': please elaborate on the scores of this patient. It was mentioned that the patient had a clinical score of 7, describe what were the parameters present in her. Please discuss the clinical parameters after the treatment. Explain your opinion on the prognosis of this particular patient not the general prognosis of the condition.</p> <p>5. Yes</p> <p>7. Out of the 12 references only 1 article is within the last 5 years. Please include recent references.</p>	
<b>Minor</b> REVISION comments		
1. Is language/English quality of the article suitable for scholarly communications?	Needs improvement in sentence construction and correction of some spellings	
<b>Optional/General</b> comments
