	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<p>Compulsory REVISION comments</p> <ol style="list-style-type: none"> 1. Is the manuscript important for scientific community? (Please write few sentences on this manuscript) 2. Is the title of the article suitable? (If not please suggest an alternative title) 3. Is the abstract of the article comprehensive? 4. Are subsections and structure of the manuscript appropriate? 5. Do you think the manuscript is scientifically correct? 6. Are the references sufficient and recent? If you have suggestion of additional references, please mention in the review form. <p>(Apart from above mentioned 6 points, reviewers are free to provide additional suggestions/comments)</p>	<p>This paper is very interesting because the author try to design and develop a customized enterprise web-based application management systems, which introduced a better approach on how to promote Insecticide Treated Nets (ITNs) supply chain management visibility, accountability, integration of inventory, real time location tracking and monitoring. Rewrite the abstract, it should tell prospective readers what you did and what the important findings in your research were. It should summarize the content or process of the paper, consist of Background, Methods, Results, and Conclusions. Review the literature related to the topic. Hypothesis and objectives must be clearly remarked at the end of the introduction. For every Fig, include clear symbols and brief descriptions. Missing The data model (Entity Relationship Diagram) and the prototype/interface of application. Authors should provide the question being addressed and conclusion of the research. The main goal of your paper is to ensure that the next person who designs a system like yours doesn't make the same mistakes and takes advantage of some of your best solutions. So make sure that the hard problems (and their solutions) are discussed and the non-obvious mistakes (and how to avoid them) are discussed. What is the importance of visibility? How do you increase visibility and type of visibility? In the conclusion, provide a clear scientific justification for your work, and indicate uses and extensions if appropriate. You should add more suitable references.</p>	
<p>Minor REVISION comments</p> <ol style="list-style-type: none"> 1. Is language/English quality of the article suitable for scholarly communications? 	Improve the English!	
<p>Optional/General comments</p>		

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	(If yes, Kindly please write down the ethical issues here in details)
