

**Editor's Comment:**

\*I suggested the authors give the title with the country name as below:

Species Composition and Diversity of Tree Species in Nanta Forest Region in Kota district, Rajasthan (India)

\*Please add a scale to the map in Figure 1. Also, Figure captions should be given below the figures. Please correct Figure 1.

Please give your objective at the end of the introduction section. Please combine the "1.2. Objective" section with the "Introduction" section.

After these arrangements, I accepted the manuscript 2023/IJECC/97211 for publication.
