

Review Form 1.7

Journal Name:	International Journal of Plant & Soil Science
Manuscript Number:	Ms_IJPSS_97417
Title of the Manuscript:	Variability, heritability and genetic advance in tomato (<i>Solanum lycopersicum</i> L.) genotypes
Type of the Article	Original Research Article

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments 1. Is the manuscript important for scientific community? (Please write few sentences on this manuscript) 2. Is the title of the article suitable? (If not please suggest an alternative title) 3. Is the abstract of the article comprehensive? 4. Are subsections and structure of the manuscript appropriate? 5. Do you think the manuscript is scientifically correct? 6. Are the references sufficient and recent? If you have suggestion of additional references, please mention in the review form. (Apart from above mentioned 6 points, reviewers are free to provide additional suggestions/comments)	Taking on count that tomato <i>Solanum lycopersicum</i> L. is an important vegetable crop and particularly now a commercial crop widely grown all over tropical, sub-tropical, the manuscript expose important results of the genetic variability of this crop. The Title is suitable I suggest to change the Abstract, it should be restructured and to include a briefly describe the purpose of the work, the techniques and methods used, the main findings with important data and the conclusions. It should eliminate the Title of the Manuscript in the Abstract In the text, citations should be indicated only with the reference number in parentheses [3] The first and second paragraph of Materials and Methods must be rewrite In Materials and Methods are not describe the methods employed to determinate each one of the parameters in the plants and the vitamin C concentration. The statistical methods employed should be described with the corresponding references	
Minor REVISION comments 1. Is language/English quality of the article suitable for scholarly communications?	The quality of English of the Manuscript should be reviewed	
Optional/General comments	In my opinion the Manuscript should be reviewed and rewrite with according with the rules of the <i>International Journal of Plant & Soil Science</i>	

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
