<p>Optional/General comments</p>	<p>The research is good and suitable for publication, but it needs the following: To explain the methodology better, I hope the researcher expands on the methodology. Research objectives should be set out in a clearer and more detailed manner. - Better coordination of figures and tables. Formatting paragraphs. - The recommendations are not clear, I ask the researcher to make recommendations from the research results. - The research is mostly descriptive and does not unify statistical analyzes, and this is what weakens the research, but it is acceptable The research is good and valid for publication after making the previous modifications</p>
