PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments 1. Is the manuscript important for scientific community? (Please write few sentences on this manuscript) 2. Is the title of the article suitable? (If not please suggest an alternative title) 3. Is the abstract of the article comprehensive? 4. Are subsections and structure of the manuscript appropriate? 5. Do you think the manuscript is scientifically correct? 6. Are the references sufficient and recent? If you have suggestion of additional references, please mention in the review form. (Apart from above mentioned 6 points, reviewers are free to provide additional suggestions/comments)	1) The topic is of much importance however, manuscript is not comprehensive. A case report should be self-explanatory upon reading but it seems incomplete. Complete timeline from start to end of the recorded case should be mentioned. 2) The title of the article is suitable. 3) Abstract can be further elaborated. Conclusion is missing in the abstract. 4) The exact timeline and place where the case was recorded should be mentioned. It is mentioned that the cases were recorded at government dental college. Where, when and how ? Chief complaint needs to be elaborated in each case report. Emphasis should be placed on differential diagnosis. Pharmacological management along with surgical management aspect should be elaborated. 5) The manuscript holds scientific value but needs to be revised to a large extent. 6) References are very limited. Number of citations need to be increased with appropriate literature.	
Minor REVISION comments 1. Is language/English quality of the article suitable for scholarly communications?	Few grammatical errors are present overall in the manuscript which need to be corrected.	
Optional/General comments
