

Editor's Comment:

Based on the recommendations of all the three reviewers, manuscript may be accepted for publication in JABB.

However, as pointed out by one reviewer also, there are few grammatical errors in the manuscript.

On going thru the revised manuscript submitted by the authors, still mistakes are there. For example, even in the abstract itself:

Second line from above- 'Sexual Transmitted Diseases'- it must be 'Sexually Transmitted Diseases'.

Tenth line from above- 'The prominent religious in the study area was Muslims (91.43%)'. It must be 'The prominent religion in the study area was Muslim (91.43%)'.

Like these mistakes, there are more mistakes at other places also. Be attentive.
