PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments 1. Is the manuscript important for scientific community? (Please write few sentences on this manuscript) 2. Is the title of the article suitable? (If not please suggest an alternative title) 3. Is the abstract of the article comprehensive? 4. Are subsections and structure of the manuscript appropriate? 5. Do you think the manuscript is scientifically correct? 6. Are the references sufficient and recent? If you have suggestion of additional references, please mention in the review form. (Apart from above mentioned 6 points, reviewers are free to provide additional suggestions/comments)	Yes this manuscript is important as it is focused on the quality of the cocoa beans and cocoa butter. Suggest a shorter title such as 'Free Fatty Acids and cocoa butter quality traits: Causes and impact on consumers' health' Please refer to the comments in the abstract section. The objective should tally with the introduction section Some of sub-sections have been suggested in the edited article. Author needs to be careful in the terms used. For example, is the article focused on free fatty acids or cocoa butter fat or cocoa powder This is based on literature review so although certain details are still unclear due to limited studies, the factors that contribute to the quality are scientifically correct. Majority of the references are from the 90's and only one study is quite recent which is Astrup,2019. Suggest to have more recent studies. This is the importance of conducting systematic search rather than narrative review.	
Minor REVISION comments 1. Is language/English quality of the article suitable for scholarly communications?	Acceptable.	
Optional/General comments		

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
