Sensory Integration Dysfunction in Children with Learning Difficulties. <i>Prima Educatione</i>, 3, 121. https://doi.org/10.17951/pe.2019.3.121-12</p>	
<p>Minor REVISION comments</p> <p>1. Is language/English quality of the article suitable for scholarly communications?</p>	<p>The English is suitable for scholarly communications</p>		
<p>Optional/General comments</p>	<p>The theme is fully topical, and very necessary for the quality of life of the population:-The incidence of premature births and the survival rate of premature newborns is increasing due to new medical technologies and related complications have an impact on causing a high risk of delayed neurological development, a very important issue to prevent. Methodologically, the article is excellent and provides a lot of knowledge, being extremely useful for the related health community.</p>		

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<p>Are there ethical issues in this manuscript?</p>	<p><i>(If yes, Kindly please write down the ethical issues here in details)</i></p>
