

## Review Form 1.7

Journal Name:	Asian Journal of Probability and Statistics
Manuscript Number:	Ms_AJPAS_97022
Title of the Manuscript:	Estimating sojourn time and transition between clinical states of HIV patients under ART follow up in Namibia
Type of the Article	

### General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<https://www.journalajpas.com/index.php/AJPAS/editorial-policy> )

### PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<p><b>Compulsory</b> REVISION comments</p> <p>1. <b>Is the manuscript important for scientific community?</b> (Please write few sentences on this manuscript)</p> <p>2. <b>Is the title of the article suitable?</b> (If not please suggest an alternative title)</p> <p>3. <b>Is the abstract of the article comprehensive?</b></p> <p>4. <b>Are subsections and structure of the manuscript appropriate?</b></p> <p>5. <b>Do you think the manuscript is scientifically correct?</b></p> <p>6. <b>Are the references sufficient and recent? If you have suggestion of additional references, please mention in the review form.</b></p> <p><b>(Apart from above mentioned 6 points, reviewers are free to provide additional suggestions/comments)</b></p>	<p>1) Some typos exist in the manuscript and English grammar throughout the manuscript should be revisited.</p> <p>2) Keywords should not include the words already used in the title of the manuscript.</p> <p>3) More informative Abstract should be provided, like adding more research methodology description and adding the results of example simulation.</p> <p>4) The introduction section of the paper is poorly written. The authors review much literature in Introduction. However, there lacks discussion and analysis to lead to the research aim of this research. The authors did not make clear of the research gap that this study fills in versus existing literature. In the end of the Introduction, a brief organizational overview is suggested to be added to facilitate readers.</p> <p>5) Additionally, it was noted that your manuscript contains sections of bulk citation. For example: [6-11]. It is important that each cited article is discussed in detail to ensure that the relevance of the source is clear to readers, and to provide suitable support to your manuscript.</p> <p>6) The references used were not in the last 3 years. So, the following articles are suggested to be cited to enrich the current study: * Alesemi M, Iqbal N, Hamoud AA. The analysis of fractional-order proportional delay physical models via a novel transform, Complexity. 2022 Feb 15;2022:1-3. * H. Rahman, M. Asjad, N. Munawar, F. parvaneh, T. Muhammad, A. A. Hamoud, H. Emadifar, F. K. Hamasalh, H. Azizi, M. Khademi, Traveling wave solutions to the Boussinesq equation via Sardar sub-equation technique, AIMS Mathematics, 2022, Volume 7, Issue 6: 11134-11149. doi: 10.3934/math.2022623</p>	
<p><b>Minor</b> REVISION comments</p> <p>1. <b>Is language/English quality of the article suitable for scholarly communications?</b></p>		
<p><b>Optional/General</b> comments</p>		

### PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<p><b>Are there ethical issues in this manuscript?</b></p>	<p>(If yes, Kindly please write down the ethical issues here in details)</p>
