

## Review Form 1.7

Journal Name:	<b>Advances in Research</b>
Manuscript Number:	<b>Ms_AIR_96653</b>
Title of the Manuscript:	<b>The Role of microRNAs Regulated Breast Cancer Stem Cells in the Pathogenesis, Prognosis and Aggressiveness of Breast Cancer</b>
Type of the Article	<b>Review Article</b>

### General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<https://www.journalair.com/index.php/AIR/editorial-policy> )

### **PART 1: Review Comments**

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<b>Compulsory REVISION</b> comments <b>1. Is the manuscript important for scientific community?</b> (Please write few sentences on this manuscript)  <b>2. Is the title of the article suitable?</b> (If not please suggest an alternative title)  <b>3. Is the abstract of the article comprehensive?</b>  <b>4. Are subsections and structure of the manuscript appropriate?</b>  <b>5. Do you think the manuscript is scientifically correct?</b>  <b>6. Are the references sufficient and recent? If you have suggestion of additional references, please mention in the review form.</b> <b>(Apart from above mentioned 6 points, reviewers are free to provide additional suggestions/comments)</b>	Breast cancer is common malignancy and a leading cause of cancer related death among women worldwide. Lots of researches are going on to aid in survival of the patients. Any contribution related to microRNA regulatory roles on breast cancer stem cells in relation to prognosis and aggressiveness maybe a milestone in future.  Yes  Yes  Yes  Yes  Please include latest references as manuscript contains the most recent reference as of 2018.	
<b>Minor REVISION</b> comments <b>1. Is language/English quality of the article suitable for scholarly communications?</b>	Yes	
<b>Optional/General</b> comments	In Aims and Objectives, there is repetition in this part so kindly reformat it We will briefly highlight the effects of BCSCs on the pathogenesis of breast cancer and summarize the regulatory mechanism of miRNA expressions on the BCSCs. We would highlight the regulatory role of the dysregulated oncogenic and tumor suppressor microRNAs on BCSCs for the pathogenesis, prognosis, and aggressiveness of breast cancer. We will then summarize the regulatory and signaling mechanism of miRNAs expressions on BCSCs for the breast cancer prognosis, aggressiveness, and metastasis.	

### **PART 2:**

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<b>Are there ethical issues in this manuscript?</b>	(If yes, Kindly please write down the ethical issues here in details)
