EDITORIAL COMMENT'S on revised paper (if any)	Authors' response to editor's comments
<ol style="list-style-type: none"> 1. -the article needs correction of the English language 2. -the Abstract should be structured, as recommended in the guidelines for the authors, available on Journal site 3. -the author should specify the clinic where the described intervention took place, and the time as well 4. -the ethical aspects should be addressed (ethical approval provided by the institutional committee) 5. -a much more detailed description of the intervention is necessary – type of anesthesia, instruments used, access, suture etc. 6. -in the Discussion section the authors say that “According to WHO classification(2005), odontomas can be divided into three groups”, but only two groups are presented 7. -in the Discussion section the authors should also discuss about similar cases in the literature 8. -the Conclusions should refer to the presented case, not to general aspects from literature. 	<ol style="list-style-type: none"> 1. Will please you highlight it? 2. My manuscript is a case report, not a study. It's already written according to the guidelines of the case report abstract. Will you please specify it? 3. Done. 4.
