PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments 1. Is the manuscript important for scientific community? (Please write few sentences on this manuscript) 2. Is the title of the article suitable? (If not please suggest an alternative title) 3. Is the abstract of the article comprehensive? 4. Are subsections and structure of the manuscript appropriate? 5. Do you think the manuscript is scientifically correct? 6. Are the references sufficient and recent? If you have suggestion of additional references, please mention in the review form. (Apart from above mentioned 6 points, reviewers are free to provide additional suggestions/comments)	1- This manuscript is important for scientific community because it reflects the opportunity of selecting effective application rates of Zink and Boron fertilizer for improving maize yield. 2- The title of the article is suitable, it clearly describes the article. 3- The abstract of the article is comprehensive. However, need to add the objectives of the study. 4- The subsections and structure of the manuscript are appropriate and clearly designed. 5- It is scientifically correct. 6- Although the references are recent, but not sufficient and need to add more reference in the discussions of yield and some yield attribute traits.	
Minor REVISION comments 1. Is language/English quality of the article suitable for scholarly communications?	Yes it is suitable. However, it requires some editing.	
Optional/General comments		

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	(If yes, Kindly please write down the ethical issues here in details)
