PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments 1. Is the manuscript important for scientific community? (Please write few sentences on this manuscript) 2. Is the title of the article suitable? (If not please suggest an alternative title) 3. Is the abstract of the article comprehensive? 4. Are subsections and structure of the manuscript appropriate? 5. Do you think the manuscript is scientifically correct? 6. Are the references sufficient and recent? If you have suggestion of additional references, please mention in the review form. (Apart from above mentioned 6 points, reviewers are free to provide additional suggestions/comments)	Yes. The manuscript reported a rare case presenting challenges and complexities in management and outcome of such a condition Yes with a minor addition...."Ureteric transection with jejunal injury secondary to bicycle handle bar penetrating injury in a 13 year old boy" Yes Fair -see text for corrections Yes References are inadequate. Definitive statements are made without references, such are indicated in the text. The authors need to improve on the references @Legend for figures should be at the bottom of each figure @ The radiographs are not clear, the images could be improved upon to show clearly the obvious abnormalities @Separate the radiographs and list the figures serially, not 1a, 1b etc	
Minor REVISION comments 1. Is language/English quality of the article suitable for scholarly communications?	Some grammatical and syntax errors have been corrected and tracked in the text	
Optional/General comments	There is a message in this case report for management of such a rare condition	

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	(If yes, Kindly please write down the ethical issues here in details)
