

## Review Form 1.7

|                          |   |
|--------------------------|---|
| Journal Name:            | <a href="#">Asian Journal of Economics, Business and Accounting</a>                             |
| Manuscript Number:       | Ms_AJEBA_97832  |
| Title of the Manuscript: | <b>An Empirical Study on Machine Learning for Enterprise Cloud Computing Service Management</b> |
| Type of the Article      | <b>Original Research Article</b>  |

### General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

<https://www.journalajebo.com/index.php/AJEBA/editorial-policy> )

### PART 1: Review Comments

|   | Reviewer's comment   | Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here) |
|---|--|---|
| <b>Compulsory</b> REVISION comments<br>1. <b>Is the manuscript important for scientific community?</b><br>(Please write few sentences on this manuscript)<br>2. <b>Is the title of the article suitable?</b><br>(If not please suggest an alternative title)<br>3. <b>Is the abstract of the article comprehensive?</b><br>4. <b>Are subsections and structure of the manuscript appropriate?</b><br>5. <b>Do you think the manuscript is scientifically correct?</b><br>6. <b>Are the references sufficient and recent? If you have suggestion of additional references, please mention in the review form.</b><br><b>(Apart from above mentioned 6 points, reviewers are free to provide additional suggestions/comments)</b> | <b>Yes</b><br><br><b>Little modification will make It appropriate – (Sample An Empirical Study on Machine Learning Algorithm for Enterprise Cloud Computing Service Management)</b><br><br><b>Yes</b><br><br><b>ML is the composition is many algorithms such as cluster, SVM etc, the subsections need to tell which algorithm is used for say service management strategies.</b><br><br><b>There are equations/ Mathematical models given in the paper, but no expansion</b><br><br><b>Ref.1. Issue and volume details to be added</b> |   |
| <b>Minor</b> REVISION comments<br>1. <b>Is language/English quality of the article suitable for scholarly communications?</b>   | Language correction needed   |   |
| <b>Optional/General</b> comments  | The Type or specific algorithm contributed in each service is essential.<br>In Tables the expansion of X axis and Y-Axis are missing<br>Author had knowledge in cloud computing,<br>However has less knowledge in mapping the application of ML algorithms in cloud service levels   |   |

### PART 2:

|   | Reviewer's comment   | Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here) |
|---|--|---|
| <b>Are there ethical issues in this manuscript?</b> | <i>(If yes, Kindly please write down the ethical issues here in details)</i> |   |
