

**Editor's Comment:**

I have a comment, which should be addressed by the authors:

I observed that P values in some analyses are not significant, despite the authors mentioning in the manuscript that  $P \leq 0.05$ . Please explain and modify your manuscript accordingly.

According to the above comment, the manuscript could be accepted after minor revision.

**Editor's Details:**

Dr. Mohamed A. Hassan  
Associate Professor, Genetic Engineering and Biotechnology Research Institute (GEBRI), The City of Scientific Research and Technological Applications (SRTA-City), Egypt.
