|---|--|---|
| Compulsory REVISION comments 1. Is the manuscript important for scientific community? (Please write few sentences on this manuscript) 2. Is the title of the article suitable? (If not please suggest an alternative title) 3. Is the abstract of the article comprehensive? 4. Are subsections and structure of the manuscript appropriate? 5. Do you think the manuscript is scientifically correct? 6. Are the references sufficient and recent? If you have suggestion of additional references, please mention in the review form. (Apart from above mentioned 6 points, reviewers are free to provide additional suggestions/comments) | no (The organic farming is a promising sector for India) yes Not well structured Yes But the scientific aspect is not well presented and developed. No (few references mostly old, the author must make an effort to cite more recent references). | |
| Minor REVISION comments 1. Is language/English quality of the article suitable for scholarly communications? | acceptable but it would be better to improve it | |
| Optional/General comments | The manuscript is poorly structured and treats the subject in a superficial way. Those are general ideas presented in an ill-structured way. We liked to see a more in-depth scientific study on the development of the agriculture sector in India (strengths, constraints, key sectors, etc) and recommendations to promote it. it is not just collections of repeated and scattered bibliographies. In addition, the author presents a confusion between traditional agriculture and conventional agriculture (traditional agriculture don't mean conventional agriculture). | |

PART 2:
