

Editor's Comment:

Regarding the Work JERR 99379 "Water Quality Assessment of Nigerian Port Authority Waterway in Port-Harcourt, Rivers State". I saw the comments of the referees and the first and second versions of the Work. In my opinion, the authors have responded well to the comments. Therefore, the article can already be published, with the observation that, if possible, add one more reference from the period 2020-2022.
