<p>Optional/General comments</p>	<ol style="list-style-type: none"> General some words are joint together that are meant to be separate word, for such cases the authors should separate such by a space. On page 2, the full meaning of ETS should be included before the acronym is being used. On page 3, figure 1, cannot have caption as the figure title, therefore an appropriate title should be given by the authors. On page 6, the single word fort should be replaced with for t. On page 8: The following statement does not make sense, "li need to be careful when dealing with it." Some clarification is needed. Maybe I subscript i. On page 8, the authors need to consider the system of equations in some places, they are referred in this format (X) and in other places simply as X, where X is the system of equation number referred to. (X) is better than X. The author should therefore correct this in Section 2.7: change 13 to (13), 17 to (17), 21 to (21), and 23 to (23), Similar, inconsistencies should be corrected throughout the paper. 7. Finally, on page 14, replace the phrase, "we hava..." with "we have...."
